RESEARCH EXPERIENCE

INFANT CAREGIVER PROJECT, *June 2016-present*

University of Delaware, PI: Dr. Mary Dozier

- Specialized Services for Children in their Own Home – Middle Childhood Outcomes (SCOH-MCO) Project: Data collection (in particular event-related potential and autonomic nervous system data), assistance in project management.
- Children Adopted Internationally – Middle Childhood Outcomes (CAI-MCO) Project: Recruitment, training, data collection, and project management.
- Methylation/fMRI: Assistance in scheduling and data collection (in particular parent-child interaction and saliva collection for methylation analysis).

ADVERSITY AND RESILIENCE IN DEVELOPMENT (ARD) LAB, *August 2014-June 2016*

Villanova University, PI: Dr. Janette E. Herbers

- Parents and Children Together Project: Lab manager for a project investigating parenting and well-being of young children in families experiencing homelessness in Philadelphia. Completed interviews, scheduled and trained research assistants, developed and maintained relationships with community partners.
- Thesis Project: Trained two coders to code video-taped parent-child interaction for mutual responsiveness. Analyzing data, and writing manuscript for submission for publication.

WORD RECOGNITION AND AUDITORY PERCEPTION (WRAP) LAB, *August 2014-Present*

Villanova University, PI: Dr. Joseph C. Toscano

- Audiometry/Starling Project: The goal of the project is to compare the efficacy and effectiveness of a speech-specific hearing test to a traditional pure-tone audiogram. Developed a program in MATLAB to administer the pure-tone audiogram. Calibrated speakers using sound level meter and unique conversion equations in MATLAB.
- Event-Related Potential/Auditory Brainstem Response (ERP/ABR) Project: As an independent study, examined the frequency specificity of subcortical and cortical ERP components of the auditory response. Developed a program

in OpenSesame, used MATLAB (EEGLAB/ERPLAB) for data analysis. Collected data using BrainVision EEG System.

SOCIAL NEUROSCIENCE LAB, *October 2009-June 2012*

University of Chicago, PIs: Dr. Louise C. Hawkley, Dr. John T. Cacioppo

- Chicago Health, Aging, and Social Relations Study (CHASRS)/CHEFS Projects: Processed survey responses and physiological data on paper and computer programs for later analysis. Assisted in physiological data collection including heart rate, blood pressure, body fat, spirometry, etc. Managed research assistant task prioritization.
